

SA718769

High grade antique Waltham pocket watch

Price

Sold**Item Reference: SA718769****Date of manufacture: 1910**

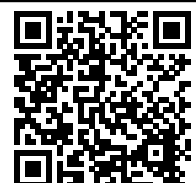

Description

High grade antique Waltham pocket watch. The watch has a good quality 17-jewel movement, grade 625, which is working nicely. The movement has nicely patterned plates, gold Church 1892 patent regulator and screw-set jewels. The movement is fully signed and the serial number 16,878,693 dates it back to around 1908. The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside the two case backs for Birmingham 1910 with a case maker's mark for Aaron Dennison. The Dennison Watch Case Company was based in Birmingham and they supplied various watch makers with cases. The case is in good condition, just a small bruise to the bezel next to number 9 but not too detrimental at all. The acrylic lens is in good condition. The signed dial is in lovely condition and has original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
