Description

Antique 1908 Waltham full hunter pocket watch. The watch has a high grade stem-winding movement grade 220 which is working well. The movement is signed A.W.W.Co, Waltham, Mass. 15 jewels and the serial number 16444144 which dates it back to 1908. The movement is protected by an inner hinged cover. The watch itself measures 47mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company. The case has light surface marking from use and the odd small "ding" to the front and back covers but overall it is in nice condition for a 1900s piece. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in nice condition. The signed dial has a couple of faint hairline cracks between 7 o'clock and the sub seconds dial but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
