Item Reference: SA719186

Date of manufacture: 1910

Description

An antique galonne cased pocket watch, circa 1910s. The watch has a good quality nicely jewelled stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. The watch measures 48mm diameter excluding the winding stem and the loop. The watch has a galonne case which is 800 silver with a rose gold wash on the bezel, centre section and around the hinged case back. The case is in beautiful condition and the engine turned detail on the back is still in nice condition. The watch glass has minor marking from use although very acceptable. The enamel dial is in beautiful condition with original ornate hands... these hands were very popular with the Scandinavians at the beginning of the 20th Century. The watch will be sent in a new presentation box.
