Depth = 10 cm (3.9")

## Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. This is a very rare Omega Seamaster Chronometer 'bumper' automatic. The model reference number is 2767. It has the chronometer calibre 354 movement adjusted to five positions and temperature. The two tone dial is quite superb having been fully restored. It comes with its original beads of rice bracelet which fits a maximum wrist size of up to 7.5 inches but a leather strap can be fitted if you prefer. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects. It has been professionally overhauled, the process is highly detailed and meticulous. It is stripped down to its component parts and each part is examined under a microscope for signs of wear, any worn parts are replaced with genuine manufacturers parts. Each part is then thoroughly cleaned in a three stage ultrasonic cleaning process. The movement is then fully assembled using manufacturers approved oils and lubricants and is carried out in a clean room environment. The movement is then checked and adjusted for accurate time keeping. The cases are polished and sealed....

Internal Ref: omega
