Depth = 10 cm (3.9")

Description

This is a very fine example of a gents classic wristwatch made by the world renowned premier Swiss maker Omega. This watch is from c1945-48. The case measures 38mm in diameter excluding the winding crown which makes this a 'jumbo'. The movement is a calibre 30T2 probably the most famous movement ever made by Omega, this was the movement used in the Battle of Britain pilots and navigators watches so it has a lot of heritage and is almost bombproof. The dial is silver with deep peacock blue hands that change colour from navy blue to deep black depending on how the light catches them. It is obviously fully serviced and restored. The watch has been fully serviced and is guaranteed to be a genuine Omega in all respects. It has been professionally overhauled, the process is highly detailed and meticulous. It is stripped down to its component parts and each part is examined under a microscope for signs of wear, any worn parts are replaced with genuine manufacturers parts. Each part is then thoroughly cleaned in a three stage ultrasonic cleaning process. The movement is then fully assembled using manufacturers approved oils and lubricants and is carried out in a clean ro...
