Description

Antique Waltham Pocket Watch. The watch has a stem-winding movement, grade number 20, which is working well. The movement is fully signed and the serial number 6651711 which dates it back to between 1895 and 1902. The movement is protected by an inner hinged cover. The watch measures 51mm diameter excluding the winding stem and the loop. The case is 14ct gold filled and was made by the Dennison Watch Case Company, the company made the majority of cases for Waltham UK. The case has light surface marking from use and a couple of small "dings" to the back but overall it is in nice condition for a 1900s piece. The acrylic lens is in nice condition. The signed enamel dial has a couple of very faint hairline cracks at 12 o'clock although hardly noticeable but otherwise it is in nice condition. The watch has its original gold hands and blued steel sub seconds hand. The watch will be sent in a new presentation box.
