Description

This is an amazing bespoke made 18ct white gold and diamond ladies watch made by Longines. It has a solid 18ct white gold case and we have calculated that it has approximately 2cts of the most exquisite diamonds which are incredibly white, bright and crisp, the sparkle they generate is absolutely amazing and are of exceptionally high grade in colour just as you would expect from Longines. The shoulders are very reminiscent of the Art Deco era in design, classic and elegant - this is not just a timepiece but a beautiful piece of jewellery. It fits a wrist size of up to 7 inches or 177mm but this can easily be reduced by any competent jeweller. The dial is absolutely perfect and it has contrasting rose gold hands and baton markers to give that extra interest and the actual case measures 16mm in diameter excluding the winding crown. It comes with its original presentation box. This watch has a fantastic design and would have probably been bespoke made for a very special lady, a rare find indeed. This is truly an exceptional piece and unique. The movement has been fully and professionally overhauled, the process is highly detailed and meticulous. The watch is stripped...
