Description

For your consideration is this good sized rare Art Deco modernist tray, dating to the 1930's and originating from France. A combination of different veneers make up this very desirable geometrically pattern tray. Opposing roll over chrome bar handles. We've taken this tray through our workshops and it's been fully and professionally restored. This level of quality tray doesn't often get presented onto the market so this is a golden opportunity to acquire a genuine rarity in what can only be described and near mint condition, showing little to no signs of age apart from the odd age spot on the chrome.
