

SA72263

Antique Pink Guilloche Enamel & Mother of Pearl Opera Glasses

Price

Sold**Item Reference: SA72263****Date of manufacture: 1910**

Description

Dating to the early twentieth century, around 1900 / 1910, were most probably made in France and quite obviously were destined for the famous Canadian Silversmiths " Henry Birk & Sons Ltd ", engraved on each iridescent Mother of Pearl eye piece. They are beautifully decorated in pretty guilloche enamel over a decorative engine turned design, and of course, pink being the most sought-after colour in items such as these; they come along very rarely. They come complete with their original pink velvet drawstring bag, which is quite worn on the interior but has done a wonderful job protecting them over the last 100 years. In full working order and excellent condition, measuring 3 3/4" wide 1 5/8" tall extending to 2". Item ID: 32101

Internal Ref: 32101
