Dimensions

Height = 39 cm (15.4")

Width = 39 cm (15.4")

Depth = 10 cm (3.9")

Description

Firstly this Omega Speedmaster is a Pre moon 1963 in very original condition. Importantly the case has not been polished. The Bezel is the original 'Dot over 90' showing even wear and tear. The dial, hands, movement and crown are all original. This is the 2998-61 reference and has the Omega Archives Extract showing it was sold to the NAAFI. This watch can be inspected by any omega expert. It has already had a new mainspring fitted by Simon Freese who was very impressed with it. If you would like any further pictures just email your request. If you would like to view, please call to arrange a visit. A very rare watch and one for the Speedmaster collector. We will supply a new original omega bezel with the watch should you want to 'smarten' it up.

Internal Ref: 1963 Speedmaster
