1930s Omega pocket watch and chain

Price

Sold**Item Reference: SA727695****Date of manufacture: 1930**

Description

1930s Omega pocket watch and chain. The watch has a 15-jewel stem-winding movement, calibre 38.5L.T1, which is working nicely. This calibre was in production from 1933 until 1949. The movement is signed with the Omega name and the serial number dates it back to the second half of the 1930s. The movement is protected by an inner hinged cover. The watch measures 47mm diameter excluding the winding crown and the loop. The case is nickel and it is in good condition for such an early piece, a couple of short scratches to the bezel and light surface marks but overall very nice. The inside of the hinged case back is signed with the Omega logo. The watch glass is in good condition. The signed dial is in very nice condition with Breguet style hands. The watch comes with a single chain, 38cm long including the T-bar and the clasp. The chain has some signs of age but it came to us with the watch so we have decided to leave them together. The watch and chain will come in a new presentation box.
