Description

Gents silver cushion cased wrist watch, 1927. The watch has a Swiss 15-jewel hand-winding movement which is working nicely. The watch measures 31mm wide excluding the winding crown and 31mm high excluding the fixed wire lugs, a good size for a cushion cased watch. The case is silver and there are hallmarks inside the case back for London (import mark) 1927 with an importer's mark for George Stockwell. From 1 June 1907, Stockwells acted as assay agents, facilitating the import into Britain of foreign gold and silver items which had to be assayed and hallmarked in a UK assay office before being released for retail. The front of the case is in good condition. The case back has some unevenness. The lens is in good condition. The dial is in lovely condition, Breguet style hands, a subsidiary seconds dial and outer minute markers. A 'new old stock' leather strap has been fitted. The watch comes in a new presentation box.
