Description

A rare angle or 'sign post' double stick barometer. A mahogany case with chequered banded inlays and parquetry. Twin vernier scale adjusters to the end of the scale and shown by small brass loops on the dial. Twin mercury tubes to the very finely engraved silvered scales. Circa 1810. Charles Aiano of London and Canterbury is a noted maker who made some fine instruments. He is recorded in Banfield's 'Barometer Makers and Retailers' book as working from around 1790. Height 33 1/2" / 85 cms Width (length of scale and case side) 26" / 67 cms Depth 2 / 5 cms From Kembery Antique Clocks Ltd you can expect a genuine antique barometer that is serviced and in full working order.
