Description

Antique Syren full hunter pocket watch. The watch has a 15-jewel stem-winding movement, signed Syren, which is working nicely. Syren was a brand name used by an importer of watches manufactured by Record and Revue (as the one we have here). The movement is protected by an inner hinged cover. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and was made by the English case maker, Aaron Dennison. The Dennison Watch Case Company supplied many watch makers with cases. Overall the case is in good condition. The front cover opens a few more degrees the standard 90 degrees but it is good and solid. The winding crown pushes in to open the front cover. Inside there is an acrylic lens which is in lovely condition. The signed dial is in lovely condition, just a small chip to the edge by number 5 which is mostly covered by the bezel. Blued steel hands. The watch comes in a new presentation box.
