

SA732335

Antique Omega pocket watch

Price

Sold**Item Reference: SA732335****Date of manufacture: 1900**

Description

Antique Omega pocket watch. The watch has a stem-winding movement which is working nicely. The movement is signed with the Omega name and it is all protected by an inner hinged cover which has a sunburst pattern to the inside. The top of this inner cover is also signed Omega and it has details of various exhibition medals won at the Grand Prix in Paris in 1900. The watch measures 50mm diameter excluding the winding stem and the loop. The white metal case has a few little "dings" to the hinged case back but overall is in good condition. The inside of the outer case back has the early Omega logo. The acrylic lens is in good condition. The signed dial is quite unusual in design with a part textured finish, beautifully ornate numerals, blued steel hands and outer minute markers. The watch comes in a new presentation box.
