

SA732688

1930s Swiss lever pocket watch and chain.

Price

Sold

Item Reference: SA732688

Date of manufacture: 1930

Description

1930s Swiss lever pocket watch and chain. The watch has a Swiss stem-winding movement which is working well. The movement is stamped non-magnetic, 7 jewel lever, Swiss made. The movement is protected by an inner hinged cover which has some surface scratching from use. The watch itself measures 49.6mm diameter excluding the winding stem and the loop. The case is nickel and has light surface marking from use but overall it is in nice condition for a 1930s piece. The watch has a glass lens and has minor marking from use although very acceptable. The white enamelled dial is in nice condition. Blue steel hands, a subsidiary seconds dial and outer minute markers. The watch comes with a single graduated albert chain which measures 27cm long including the T bar and clasp. The watch and chain will be sent in a new presentation box.
