Date of manufacture: 1910

Description

The watch has a nice quality Swiss stem-winding movement which is working well. The movement is stamped 15 jewels, Swiss made. The movement is protected by an inner hinged cover. The watch measures 46.6mm diameter excluding the winding stem and the loop. The case is silver and there are hallmarks inside both of the case backs for London (import mark) 1918 with the importers mark for Arthur George Rendell. The case has light surface marking and the odd small "ding" to the back but overall it is in nice condition. The watch glass is in good condition. The white enamel dial has four very faint hairline cracks but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
