Description

Circa 1900-1920 a pair of fine quality, well made brass candlesticks converted into lamps many years ago and rewired by the previous owner. They measure 58cm in height in total; 40cm up to the decorative candle holder and the original weighted bases are approximately 13.5cm in diameter with little bun feet. Each lamp weighs about 1.7kgs and they have been professionally polished but not lacquered. Both are in very good condition with no signs of repair or damage, and the decorative work around the candle cups is complete. They will require an up to date PAT test before use. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad please contact us for a delivery quote.
