

SA737138

Antique 1920s Electa pocket watch.

Price

Sold

Item Reference: SA737138

Date of manufacture: 1920

Description

Antique 1920s Electa pocket watch. The watch has a 15-jewel stem-winding Electa movement which is working nicely. The movement is stamped 15 jewels, Swiss made. The watch measures 50.4mm diameter excluding the winding stem and loop. The case is gold plated and is the Cyclone model made by the Keystone Watch Case Company. The case has engine turned detail to the back with a vacant cartouche to the centre. The case is in nice condition with only minor marking to the edge. The glass lens has minor marking from use although very acceptable. The white enamel dial has 3 very faint hairline cracks although only noticeable through a jewellers loupe. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
