Description

Very impressive antique gilt metal French clock set, consisting of the clock & two garnitures, all dating from around the 1890-1900 period. This whole set is in good original condition & the gilding is a bit rubbed in places, which adds to the character. The porcelain is also in excellent condition & has hand painted decorations all over. The side garnitures have rams heads & laurels. The clock itself is all there, but right now is not working, so will need to go to a clock repairer to fix. Please enlarge all the images to see all the fine details.
