A PAIR OF SMALL BRASS WALL LIGHTS

Price

Sold**Item Reference: SA739782****Date of manufacture: 1910**

Dimensions

Height = 16 cm (6.3")

Width = 9 cm (3.5")

Depth = 15 cm (5.9")

Description

Circa 1910-20 a pair of heavy and decorative small wall lights with lots of details throughout. They measure 16cm in height if you hang them as shown in first photo (they could be fitted either way). The backplates are 9cm in length and approximately 4.5cm across and have four purpose made holes for attaching to a wall, and the depth from the back plate to the lamp holder is 15cm. They were rewired by the previous owner and should have an up to date PAT test before use. On one of them there is some soldering where the arm is attached to the back plate, our price reflects this, otherwise they are in good condition. We have some original period glass shades on our website lancasterantiques.co.uk that may suit this pair of wall lights. Postage and packing within the UK mainland only is included in the price and for remote areas or abroad please contact us for a delivery quote.

Internal Ref: OS/948
