## Description

One of the main criterias which command high desirability and collectability is condition and this Art Deco compact has it in abundance. So often found with flaking enamel or specs and chips of enamel missing. Not this one, it's in the best condition you could hope for. One could easily think it's not ever been used when viewing the exterior. The only real signs of age are to the internal mirror which has silver loss, other than that everything is as good as it could be for 90 odd years old. Free UK delivery
