Sold

Item Reference: SA742049

Date of manufacture: 1920

Description

1923 Elgin full hunter pocket watch. The watch has a stem-winding movement, seven jewel grade 292, which is working well. The movement is fully signed and the serial number 25451697 which dates it back to 1923. The movement is protected by an inner hinged cover with a presentation dated 1924. The watch measures 51mm diameter excluding the winding stem and the loop. The case is gold plated and is the Cyclone model made by the Keystone Watch Case Company. The case has minor surface marking from use and some light wear to the inner cover but overall it is in nice condition for a 1920s piece. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in nice condition. The signed dial has a couple of very faint hairline cracks to the bottom of the sub seconds dial although hardly noticeable but otherwise it is in nice condition. The watch has its original blued steel hands. The watch comes in a new presentation box.
