Description

Antique silver trench watch, 1911. The watch has a 7 jewel hand-winding movement, possibly by H Williamson, which is working nicely. The movement is protected by an inner hinged cover. The watch is a good size at 35mm diameter excluding the fixed wire lugs and the onion winding crown. The case is silver and there are hallmarks inside both of the case backs for Birmingham 1911 with a case maker's mark for Aaron Dennison, the Dennison Watch Case Company manufactured cases for various watch manufacturers. The case is in lovely condition with just light surface marking, nothing serious at all. The watch glass is in lovely condition. The dial is in lovely condition with blued steel hands and outer minute track. A new leather strap has been fitted. The watch comes in a new presentation box.
