1924 Elgin white gold filled pocket watch

Price

Sold**Item Reference: SA745759****Date of manufacture: 1920**

Description

1924 Elgin white gold filled pocket watch. The watch has a grade 315 15-jewel stem-winding movement which is working nicely. This is a good quality movement with patterned plates, screw set jewels and Moseley travelling nut regulator. This particular grade was in production for many years, from 1904 right up until 1940. The watch measures 43mm diameter excluding the winding stem and the loop. The case is the 14k white gold filled Tivoli model from the Illinois Watch Case Company for Elgin. The case has lovely decoration around the bezel, sides and the edge of the case back. There is a little unevenness to the screw-on case back. The watch glass has minor marking but overall is in good condition. The signed silvered dial has its original hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
