Date of manufacture: 1910

Description

Antique silver Omega pocket watch. The watch has a stem-winding movement which is working well. The movement is signed with the Omega name and there is a serial number 4625388 which dates it back to around 1914/15. The movement is protected by an inner hinged cover. The watch measures 47.7mm diameter excluding the winding stem and the loop. The case is silver and there are continental hallmarks inside the case backs, together with the early Omega stamp. The case has light surface marking from use and some mild bruising to the back but overall it is in nice condition for a 1915 piece. The acrylic lens has minor marking from use. The signed white enamel dial has several very faint hairline cracks and an old repair between 3 & 4 o'clock. The watch has blued steel Breguet style hands. The watch will be sent in a new presentation box.
