Description

Antique 1920s Moeris pocket watch. The watch has a good quality Moeris stem-winding movement which is working nicely. The movement is protected by an inner hinged cover. Moeris was a well respected manufacturer, one of the companies used to supply the British military with watches. The watch measures 46.8mm diameter excluding the winding stem and the loop. The case is nickel and has minor marking from use but overall it is in nice condition for a 1920s piece. The glass lens has minor marking from use although very acceptable. The enamel dial is in nice condition. The watch has ornate copper coloured hands (which are set by a pin set mechanism) and a blued steel sub seconds hand. The watch will be sent in a new presentation box.
