Description

1920s Selezi pocket watch from Dimier Frères & Cie. The watch has a Revue stem-winding movement which would have been bought in by Dimier Frères & Cie, to be subsequently sold under the brand name Selezi, a brand name registered by Dimier Frères in 1912. The movement is working nicely and it is protected by an inner hinged cover. The watch itself measures 50mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and is the Moon model made by the Dennison Watch Case Company, a prolific manufacturer of cases for various watch factories. The case has light surface marking from use and a couple of indentations to the back but overall it is in nice condition for a 1920s piece. The watch glass is in nice condition. The white enamel dial is in good condition and has blued steel hands, a subsidiary seconds dial and an outer minute track. The watch will come in a new presentation box.
