Date of manufacture: 1930

Description

1930s silver Omega pocket watch. The watch has a stem-winding movement which is working well. The movement is signed with the Omega name and there is a serial number 7667347 which dates it back to the early 1930s. The movement is protected by an inner hinged cover. The watch measures 46mm diameter excluding the winding stem and the loop. The case is .900 silver and there are continental hallmarks inside the case backs, together with the early Omega stamp. The case has light surface marking from use and some mild bruising to the back but overall it is in nice condition for a 1930s piece. The case back has monogrammed initials. The acrylic lens is in nice condition. The signed white enamel dial has several very faint hairline cracks between 9 & 10 o'clock but otherwise it is in nice condition. The watch has blued steel Breguet style hands. The watch will be sent in a new presentation box.
