Sold

Item Reference: SA748457

Date of manufacture: 1900

Description

Antique 1902 Waltham pocket watch. The watch has a 15-jewel stem-winding movement, 620 grade, which is working nicely. The movement has beautifully patterned plates which are fully signed and the serial number 11742375 dates it back to 1902. The watch measures 50.7mm diameter excluding the winding stem and the loop. The case is 10ct gold filled and was made by the Dennison Watch Case Company. The case has light surface marking from use and a couple of small "dings" to the back but overall it is in nice condition for a 1902 piece. The glass lens has minor marking from use although very acceptable. The signed dial has a couple of short faint hairlines to the top and bottom of the sub seconds dial but you have to look closely to see them. The watch has its original blued steel hands. The watch comes in a new presentation box.
