Description

Antique Waltham full hunter pocket watch, 1913. The watch has a 15 jewel stem-winding movement, grade 620 which is working well. The fully signed movement has the serial number 19437240 which dates it back to 1913. The movement is protected by an inner hinged cover. The watch measures 50.4mm diameter excluding the winding stem and the loop. The case is gold plated and is stamped Regent. The case has light surface marking from use and a couple of small "dings" to the back but overall it is in nice condition for a 1913 piece. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in nice condition. The white enamel dial has a very faint hairline crack below the sub seconds dial although only noticeable with a jewellers loupe but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
