The clock is a fine example of a skeleton clock with its original glass dome standing on a white marble base. It has a very good pierced silvered dial engraved with black Roman numerals and matching hands, an eight day movement with passing strike on a silvered bell, driven by fusee chain movement and an anchor escapement also the clock carries the makers name COLYER WITHAM. In original untouched condition and working. To the marble base is a brass plaque engraved saying Presented by subscription Mr. William Garrett As a token of esteem and appreciation of his long and valuable service as leader of the Witham congregational chapel May choir 1867 So this would probably date the clock to sometime before 1867.
