Description

A mid 19th century continental settee. Made from well figured Cuban mahogany and of excellent quality, the settee has carved decoration to the arm uprights and front legs. It is of a good colour and possibly Swedish in origin. It needs some very minor attention and possibly recovering (it is as I bought it and would look great with a good top fabric). It can be free standing or placed against a wall and at only 25.5 inches deep is unusually shallow.
