

SA750400

Antique silver Omega pocket watch

Price

Sold**Item Reference: SA750400****Date of manufacture: 1920**

Description

Antique silver Omega pocket watch. The watch has a stem-winding movement, identified as by Omega, which is working nicely. The movement is protected by an inner hinged cover which has a little scratching and a slight indentation. The watch measures 50mm diameter excluding the winding stem and the loop. The case is silver and there are Swiss hallmarks inside both of the case backs together with the early Omega logo. The case has a couple of small bruises to the side and some unevenness to the hinged case back. The watch glass has light marking but is very acceptable. The dial is signed Omega, importé de Suisse. There is a faint hairline between 11 and 12, and a patch of hairlines on the edge of the dial by number 5. The watch comes in a new presentation box.
