Description

1883 silver English Lever pocket watch. The watch has a key-winding movement which is working well. The movement is numbered 55073N. The movement is protected by an inner fitted cover. A winding key is included. The watch measures 52.4mm diameter excluding the stem and the loop. The case is silver and there are hallmarks inside both of the case backs for London 1883 with a maker's mark for the case maker William Knight. The case has light surface marking from use and the odd small "ding" to the back but overall it is in nice condition for an 1880s piece. The glass lens is in nice condition. The white enamel dial has several faint hairline cracks but otherwise it is in nice condition. The watch has its original blued steel hands. The watch will be sent in a new presentation box.
