Description

A highly decorative Art Deco Hairdryer stamped FIGARO PARIS c1930. Standing on a polished steel stand the "hood" section is in polished brass with holes to direct hot air. This "hood" opens out to allow the head to be placed inside. It has further adjustment to its angle. Original blower now missing, but please see 1930 photograph showing a very similar one in operation.....the lady looks a little apprehensive....perhaps the carefully placed fire extinguisher nearby doesn't give her much confidence!?! Now converted to a floor standing lamp with a large led filament bulb where your head should be!....wired to current regulations and Pat tested. Measurements below are the maximum ones. The "Hood" measures roughly 50 cm wide and 30 cm deep. The "footprint" of base is approximately 37 by 37 cms.
