Depth = 54 cm (21.3")

Description

Antique Georgian Elm chest This Antique Elm chest was made circa 1820 in a country workshop using the timber from fallen trees on a large estate. The country cabinetmaker would use materials that were free to hand and on this occasion rather than oak he used Elm. Quite often the cabinetmakers would see the up to the current fashion chest of drawers in the grand house that was made of mahogany and then copy that design to be used in one of the cottages in the estate. This stands on bracket feet and is fitted 2 short and 3 long graduated drawers. It is a lovely colour with interested grain and good patina, it is bound to look great in many situations around the modern home, providing plenty of good storage. 94cms wide 37ins 54cms deep 21ins 95cms high 37ins All Measurements are approximate, whilst we take care in measuring there may at times be a very slight difference. This Antique Elm chest has the Hingstons Antiques brand guarantee plate. This gives you the peace of mind that it meets the quality and expectations you expect when purchasing from Hingstons Antiques. This Antique Elm chest is a very green product and has not damaged our environment Delivery We can arrange...
