Description

1930s Cyma pocket watch. The watch has a good quality Swiss 15 jewel (three adjustments) movement which is working nicely. The movement has been identified as a Cyma 999. The watch measures 51mm diameter excluding the winding stem and the loop. The case is gold plated and it is in good condition with just a handful of short surface scratches to the case back. The watch glass has minor marking but is very acceptable. The dial is in lovely condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
