Description

Gents 1960s Vertex Revue wrist watch. The watch has a Swiss 17-jewel hand-winding movement, a Revue 76, which is working nicely. The watch measures 33mm diameter excluding the winding crown and the lugs. The case is chrome plated and the front is in beautiful condition. There is a little marking to the back but nothing too significant. The lens is in lovely condition too. The signed dial is in its original finish with original hands and a subsidiary seconds dial. There is some light freckling across the dial but you have to look quite closely to see it. A new leather strap has been fitted. The watch comes in a new presentation box.
