Date of manufacture: 1900

Description

Antique silver Omega pocket watch. The watch has a nicely jewelled stem-winding movement which is working nicely. The movement has the Omega logo on the balance bridge. The watch dates to around 1900 although the serial number will be under the dial. The movement is protected by an inner hinged cover with an inscription. The case measures 47.7mm diameter excluding the winding stem and the loop. The case is .800 silver and there are Continental hallmarks inside the case backs, together with the Omega logo. There is a rose gold wash around the edge of the watch although some of the gold has worn away from use. The acrylic lens is in nice condition with only minor marking from use. The signed white enamel dial is in beautiful condition and has Breguet style hands, a subsidiary seconds dial and an outer minute track. The watch will be sent in a new presentation box.
