Description

Antique "The Angus" full hunter pocket watch. The watch has a Swiss 15-jewel stem-winding movement, which looks very much like a Revue movement, which is working nicely. The movement is protected by an inner hinged cover which is engraved, 'Presented to Guard A Straiton, LMS Dundee, for 46 years service, 7.12.28'. The watch measures 50mm diameter excluding the winding stem and the loop. The case is gold plated and it is in lovely condition. The front cover has lovely ornate initials, AS, which tie up nicely with the inscription. The winding crown pushes in to open the front cover. Inside there is a glass lens which is in good condition. The dial is signed The Angus and it is in lovely condition with original blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
