Description

Fabulous, original painted wooden wheelbarrow, circa 1900 Hard grained pine with wrought iron supports with original dry blue-green painted finish. The two side panels are removable. Very sturdy, drives with a wonderful trundling noise and motion. A timeless yet forgotten design ' they don't make them like this anymore '.... Great for collectors, giving children rides in the garden or indoors as a book carrier or convert to coffee table or book shelves. Old light sprinkling of woodworm holes hasn't affected its sound build and strength. Wear to the front board corners, stable but could be restored. Length 188cm or 82"
