Description

1966 Longines pocket watch. The watch has a stem-winding 15-jewel movement, calibre 37.93, which is working nicely. The movement is fully signed with the Longines name and the serial number 13,519,017 dates it back to 1966. The watch measures 47mm diameter excluding the winding crown and loop. The case is stainless steel and it is in lovely condition, just the odd little mark but nothing serious at all. The glass lens is in lovely condition. The signed dial is in its original finish with original hands, a subsidiary seconds dial and outer minute markers. The watch comes in a new presentation box.
