## Description

Circa 1910-1940 a heavy and well made brass lamp with the original cast iron base stamped with the manufacturer's mark and reference numbers that unfortunately we haven't been able to trace. See last photo. The lamp is 32cm in height with a 12cm square base, and it weigh approximately 1.3kgs. The previous owner had it rewired and to comply with UK regulations the lamp should be PAT tested before use. Our electricians are temporary closed and therefore we have been unable to have this done. It is in very good condition with no signs of damage or repair. Postage and packing for UK inland is included in the price and for outside areas or abroad please contact us for a delivery quote.

Internal Ref: 1561
