Depth = 32 cm (12.6")

Description

This is a elegant antique Victorian silver-plated telescopic standard lamp now converted to electricity, late 19th Century in date. The lamp features a cylindrical shaft which can adjust the height of the lamp. It features a doric column above a striking tapering and slender shaft and it stands on a large and weighted circular base. The craftsmanship is second to none throughout all aspects of this floor lamp and it is sure to add an unparalleled touch of lighting to your home. Condition: In excellent working condition having been beautifully cleaned, rewired and PAT tested in our workshops, please see photos for confirmation. Dimensions in cm: Height 147 x Width 32 x Depth 32 Dimensions in inches: Height 57.9 x Width 12.6 x Depth 12.6 The Doric order is the earliest of the three Classical orders of architecture and represents an important moment in Mediterranean architecture when monumental construction made the transition from impermanent materials—like wood—to permanent materials, namely stone. The Doric order is characterized by a plain, unadorned column capital and a column that rests directly on the stylobate of the temple without a base. The Doric ent...
