Description

Antique Omega pocket watch, c1925. The watch has a 15-jewel stem-winding movement, calibre 40.6.L, which is working nicely. The movement is signed with the Omega logo and the serial number 6,412,372 dates it back to around 1925. The movement is protected by an inner hinged cover which has some marking and scratching. The watch measures 49mm diameter excluding the winding stem and the loop. The case is nickel. The front and sides are in good condition. The hinged case back has a couple of small "dings" and a little unevenness but not too serious at all. The inside of the hinged case back is signed with the Omega logo. The acrylic lens has light marking. The signed dial is in lovely condition and has Breguet style blued steel hands, a subsidiary seconds dial and an outer minute track. The watch comes in a new presentation box.
