Depth = 10 cm (3.9")

Description

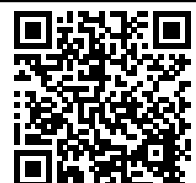

This is an exemplary example of a gents classic wristwatch made by the world renowned premier maker International Watch Company or IWC. It has the legendary calibre 8541 movement widely regarded as one of the finest automatic movements ever made and known as the watchmakers watch, as you can see is in superb condition. The dial is original and in superb condition. As you would expect the watch is fully marked on the dial, movement and case. The watch case is oversize and measures 31mm square not including the crown. It has been professionally serviced and overhauled, the process is highly detailed and meticulous. It is stripped down to its component parts and each part is examined under a microscope for signs of wear, any worn parts are replaced with genuine manufacturers parts. Each part is then thoroughly cleaned in a three stage ultrasonic cleaning process. The movement is then fully assembled using manufacturers approved oils and lubricants and is carried out in a clean room environment. The movement is then checked and adjusted for accurate time keeping. The cases are polished and sealed. Obviously this is not a cheap or quick process which is why our watche...
