Description

Gents 1950s Roamer wrist watch. The watch has a 17-jewel hand-winding movement which is working nicely. The watch measures 33mm diameter excluding the winding crown and the nicely shaped lugs. The case is chrome plated and there is some marking but overall acceptable for a 1950s piece. The case back is stainless steel and is signed with the Roamer name, together with various brevet (patent) numbers. It also states that the watch is waterproof but, as with any vintage watch, it should be kept away from water and moisture. There is some marking to the case back. The lens is in lovely condition. The signed dial is in lovely original condition with original hands, seconds sweep and outer minute markers. A new leather strap has been fitted. The watch comes in a new presentation box.
