Sold**Item Reference: SA759409****Date of manufacture: 1870**

Dimensions

Height = 36 cm (14.2")

Width = 96 cm (37.8")

Description

The 'germech' was the base panel under the engsi (door-rug) and which was designed to keep-out vermin. This germech, made by Ersary Turkmen in the Middle Amu Darya Region of Turkmenistan circa 1860-1870, has a superb madder-red field comprising diamond-shaped 'guls' or tribal crests throughout. The main border is powerful and at the base, a plain-weave panel completes this rare and fabulous trapping. In excellent and complete condition. Size: 36 x 96cm (1' 2" x 3' 2").

Internal Ref: BM/FS1
