Dimensions

Height = 34 cm (13.4")

Width = 34 cm (13.4")

Depth = 9 cm (3.5")

Description

A twist on the traditional dial clock. This timepiece was made by Zenith and features a superb quality Swiss 18 day movement with a center winding position and domed dial made of polished Beech. This example is roughly 14 inches in size. Heals retailed these clocks from the 1930's and they have become quite collectable in recent years. With applied gilt brass numerals and hands. A true classic and this one really does have to be seen to be fully appreciated. The waxed glossy finish to the dial is exceptional. They are difficult find in this condition.

Internal Ref: Zenith Beech
